THE LANGHAM ESTATE

11,000 sq ft over basement, ground and 1st floor, on The Langham Estate

Making a stylish entry into London after taking Europe and North America by storm, Vapiano, a business originally launched in Hamburg, Germany, in October 2002, has just completed comprehensive refurbishment of the property.

Guests can sample freshly prepared food, innovative technology and chic Italian décor with a dining experience unlike any other. The ingredients used for every Vapiano dish are subject to the highest quality and freshness standards. Pasta is made freshly on the premises each day and every dish is complemented with fresh herbs from the restaurant's extensive herb garden. The venue even boasts its own olive tree. Customers can become intimately involved in the creation of their meal as they order directly from their chef who then prepares it right in front of them at the individual cooking workstations. Traditional Italian delights such as pizza, fresh house-made pasta and hand tossed gourmet salads can be seen on the menu along with accompaniments of fresh figs, spicy Italian sausage, king prawns or gorgonzola cheese.
